## SUMMARY

Full stack web developer with nearly a year of hands-on experience in Java, JavaScript, Spring Framework, React and other web development tools. Experienced in frontend and backend development, and database integration. Applying for the position of Full Stack Web Developer to create innovative solutions for clients.

## SKILLS

- JAVA
- Spring Boot
- Spring MVC
- HTML / CSS
- JavaScript
- React
- RESTful API
- Node.js
- Express.js
- MySQL
- Mongo DB
- GitHub

## WORK EXPERIENCE

### NJ India Invest Private Limited Finlogic Technologies

Full-stack Java Developer • March 2023 - Jan 2024, Gujarat

- Managed a Portfolio Management Services (PMS) project, leveraging Java and Spring Boot to develop the backend, resulting in a 25% increase in system performance.
- Spearheaded system modifications that led to a 15% enhancement in website and database application performance.
- Collaborated with a 15-member cross-functional team to design, develop, and implement system improvements, resulting in a 30% reduction in response time.
- Initiated and executed changes in existing projects, optimizing functionality by 20%.
- Implemented frontend improvements using HTML, CSS, and JavaScript, resulting in a 40% increase in website user engagement. Utilized JSP for dynamic web pages and integrated React for enhanced user interface responsiveness.
- Efficiently managed data using MySQL, achieving a 25% reduction in data retrieval time and also employed Git repositories, including GitHub and GitLab, for version control, ensuring seamless collaboration and code management.

## PERSONAL PROJECTS

### Online Food Delivery System

<https://github.com/Dev-Mriganka/Online-Food-Delivery-System>

- Developed a Food Delivery App using Java, Spring Boot, Spring JPA, and SQL, enabling customers to place orders and restaurants to view and accept them.
- Created a RESTful API with CRUD operations, ensuring seamless data management.
- Completed key modules: customer, restaurant, cart, item, and order, resulting in a comprehensive and functional app.
- Led the implementation of the cart module, significantly improving the ordering process.
- Collaborated with a team of developers to create this Food Delivery App, streamlining the development process and enhancing its functionality.

### E-Learning Website

<https://github.com/Karishmagupta05/E-LEARNING>

- Developed an Education website using HTML, CSS, and JavaScript, React.js with a user-friendly interface.
- Implemented sections for courses, blogs, pricing details, team introductions, and a contact page.
- Utilized React for enhanced interactivity, creating a comprehensive platform for online education seekers.

## EDUCATION

### Bachelor of technology, Computer Science Engineering

Shri Shankaracharya Engineering College(C.G) • Chhattisgarh, India • 2021

## CERTIFICATIONS

### Full Stack Web Development

Masai School • 2022

Completed extensive training in DSA, along with 1000 hours of coding encompassing a wide range of technologies, including HTML, CSS, JavaScript, Java, Spring Framework, and MySQL. Developed proficiency in both frontend and backend development through hands-on experience on 5 major projects and minor projects.
